

Crockerne C of E Primary School

February 2018

Dear Parents and Carers

As a school we have been reviewing our vision and values for the future. We have worked as a school team: staff, governors and most importantly the children.

The style of learning we are developing promotes the children being fully involved in the projects that they learn through each term; the self- challenge and the use of self and peer assessment. We have a real can do attitude to learning which the children embrace along with the use of the learning gems. Subsequently we have developed a new vision statement which sums up this philosophy - # THE BEST ME THAT I CAN BE.

This vision statement and our values map, we feel, encapsulates our children's' positive attitudes and enthusiasm for learning.

We have also restructured the Home School Agreement to reflect our vision and values. Please could you go through it with your child and sign it and send it back into school.

This year, all parents and children need to sign this and then in subsequent years we will then go through it with the children and they can sign the copy held in school.

We are sure that you will agree that our vision and values reflect our children: who they are and what we want them to be!

Lara Furmidge and Geeta Verrell
Co-Headteachers

Jon Clay
Chair of Governors.
